

# How to vote

Your vote is important. It is therefore crucial that you vote in the correct manner. There are two ways of voting:

- 1. VOTE FOR THE FULL LIST:** shade in the box at the top of the BTB-ABVV list. This means that you agree with rank order shown on the list.
- 2. VOTE FOR INDIVIDUAL CANDIDATES:** shade in one or more boxes next to the names of your chosen BTB-ABVV candidates. This means that you wish to express a preference for one or more candidates.

*Please note: you can only shade in a maximum of 50% of the boxes. For example, if there are 4 candidates, you can only shade in 2 boxes, otherwise it means you wish to vote for the full list!*

## Any more questions?

- Not sure whether you have received the necessary information? Do you have any other questions about the vote? You can always contact your delegate!
- You can also enquire at the voting station set up by your employer at your company, on the day when the election is held (between 13 - 26 May 2024).

## How many boxes can you shade in?

The number of individual candidate votes (boxes) that you can shade in depends on the number of seats allocated. Please speak to the BTB-ABVV representatives at your company if you require further information! If you select more individual candidates than the number of mandates, your vote will not be wasted! You will be automatically considered to have voted for the full list. If you vote for the full list and for individual candidates, your vote will automatically become a full list vote.

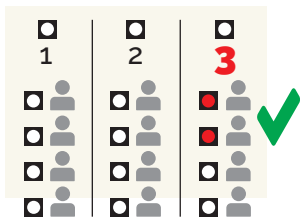

*Please note: votes for several trade unions (lists) are not permitted and considered invalid. This is known as vote splitting.*

## While in the polling booth, I noticed that I made a mistake. What should I do?

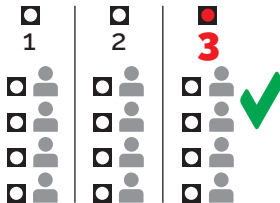

If votes are always cast using a pencil and paper at your company and you accidentally make a mistake, you can ask for another ballot paper. In companies with electronic voting, the system will not allow mistakes.
